## DETAILED ACTION

### *Allowable Subject Matter*

Claims 2-21 are allowed.

The following is a statement of reasons for the indication of allowable subject matter:

Regarding dependent claim 2, the prior arts fail to teach "contacting recipients of the file transmission in order to confirm receipt thereof", as cited in the claim.

Regarding independent claim 5, the prior arts fail to teach "determining which of the plurality of satellites serves clients on the client list", as cited in the claim.

Regarding independent claim 10, the prior arts fail to teach "for each request, identifying the client pools to which the clients on the client list belong", as cited in the claim.

Regarding independent claim 17, the prior arts fail to teach "the at least two local arbitration servers, each communicating with a satellite of the plurality of satellites and adapted to: dynamically evaluate each request for transmission to determine whether to overlay upon the allocations by the master arbitration server an adjusted allocation changing the time slice, the transfer rate, or both associated with each request", as cited in the claim.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
